Pensile

The fountain at everyone's height.

Pensile is the safest and most efficient wall-mounted water fountain ever. Perfect for all **high-traffic** environments such as schools, gyms, airports, and museums, it is a truly unique wall-mounted dispenser.

It's your drinking water, always within reach—cold and great-tasting because it is filtered instantly.
Perfect hygiene thanks to **ZERICA's Silver Turbo Clean** refrigeration system; it requires a drain connection for an incredibly practical user experience.

Pensile is the eco-friendly solution that helps reduce environmental impact by eliminating the need for plastic bottles.

Discover how easy it is to care for the environment while saving time and money: no more continuous water supply purchases, heavy bills, or waste management.

Choose **Pensile** and discover all the benefits of "**responsible drinking**" by **ZERICA**: proper hydration and respect for the environment. Bring your reusable bottles with you—your daily contribution to a plastic-free environment.

Enabling technologies & key benefits

Scopri cosa abbiamo riservato per te.

Silver Turbo Clean
An exclusive sealed stainless-steel ice-bank system with bacteriostatic silver welds. No more refills or maintenance. With every dispensing, a powerful vortex prevents dirt and residue build-up.

No Sanitize
These units have been designed to take full advantage of a system that does not require continuous routine maintenance or sanitisation. Hygiene is guaranteed and maintenance costs are reduced.

Stainless Steel
A high-quality stainless-steel cabinet with a satin finish. Highly durable, it can be renewed and cleaned using dedicated products that preserve its appearance.

ZERICA: producing the panels

Pensile

Product focus

1. Gooseneck tap in chrome-plated brass
2. Bubbler tap in chrome-plated brass
3. Basin in AISI 304 stainless steel
4. 430 stainless steel cabinet (optional: plastic-coated galvanized steel)
5. Removable front panel for accessories (flow meter & filtration system)

Technical specifications

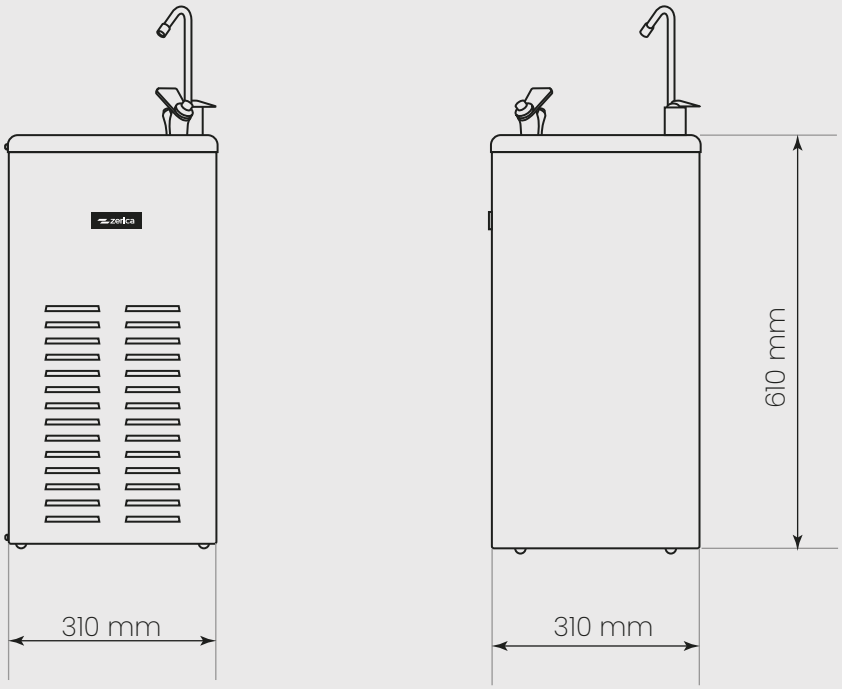

Dispensing	Cold
Refrigeration Capacity	75 L/h‡
Continuous	6 L‡
Water outlet temperature	3 °C ~ 12 °C
Simultaneous dispensing	2
Refrigeration system	Silver Turbo Clean
Condensation method	Forced ventilation
Compressor power	1/8 Hp
Refrigerant gas	R600a
Adjustable temperature	√
External cabinet	Stainless steel
Ways	2
Accessories supplied as standard	Gooseneck tap and bubbler tap - schuko cable
Inlets (push-fit)	8 mm F
Overflow	ID 18.7 mm
Mains water pressure	2.5 bar ~ 5 bar
Operating temperature	5 °C ~ 38 °C §
Energy consumption	0.9 A | 165W
Power supply voltage	230 V | 50 Hz
Low Energy	√
Noise level (Volume)	< 52 dB
Unit weight | Shipping weight	17 kg | 19 kg
Dimensions (cm) - W x D x H	31 x 31 x 61
Packaging dimensions (cm) - W x D x H	37 x 36 x 62
Units per pallet	12*

KEY
√ - included as standard
O - Optional

‡ΔT= 4 °C
§Values may be affected by external factors. Higher performing alternatives available on demand
